

BEAUTY QUEEN & HER FATHER RAISE OVER £100 FOR SKIN DISEASE RESEARCH

Beauty queen, Junior Miss Bolton & Bury aka Giorgia Frost, 17, and her dad, Kevin Frost, 46, have completed the *Big Fun Run* in Manchester raising £102. The father-daughter duo from Castleton in Rochdale completed the 5k fun run to raise vital funds for skin disease research as Giorgia suffers with acne.

The run took place on 21st August near 18th-century country house, Heaton Hall. The scenic route passed the lake and the golf course before swinging back to the famous Heaton Hall.

Giorgia said, *“The weather wasn’t very pleasant but it was good fun! We’re both still a bit achy but it was worth it to raise money for the British Skin Foundation. Thank you to everyone who donated.”*

Despite the challenges acne can present, aspiring model Giorgia entered a local beauty pageant last year, rather than letting her skin get her down. Her decision was supported by her family decided was crowned **Junior Miss Bolton & Bury in 2015-16** and hopes that her story will be an inspiration to others with skin problems.

Kevin says, *“I’m so proud of Giorgia for being confident enough to be herself and wowing at the pageant last year. It’s great that she wants to help others with skin conditions and I of course wanted to support her by taking on the challenge too.”*

Press release

The **British Skin Foundation** is the only UK charity dedicated to raising funds for skin disease and skin cancer research. There are **eight million** people living with a skin disease in the UK, some are manageable and others are severe enough to kill. Skin disease doesn't just affect the skin. It can have a huge impact on a person's day-to-day life, crush self-confidence, restrict movement, lead to depression and put a huge strain on families as well as personal relationships.

Our unwavering commitment to funding quality research means we won't stop until we've found cures for common skin problems like eczema and acne through to potential killers like malignant melanoma. This year the British Skin Foundation turns 20 years old, giving out more than £10 million in grants to over 300 research projects since 1996.
